## Incubator Shaker

CE ISO9001  
CERTIFIED

### 7/10 Inches Touch Screen

High resolution touch screen enables easy operation. It displays Time, speed, temperature, humidity and all other set values.

User can set up to 12 steps for different experiment requirements.

### Sliding Out Platform

This slide out design makes loading and cleaning very easy. User can pull the locking handle by using just one hand to load and unload the fixtures which is fast and convenient.

## Stackable Up To 3 Units

Suggest to use floor stand for one unit or 2 units purchase

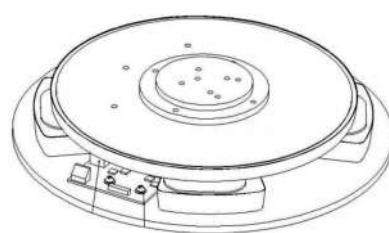

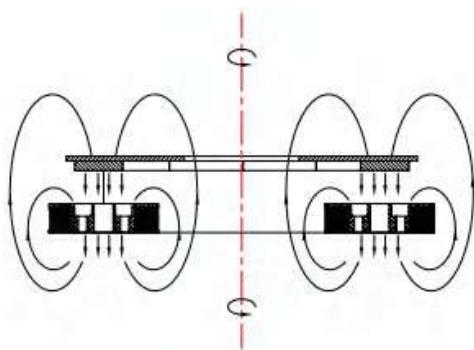

Users can purchase either one, two or three units which can be stacked directly on the floor. For one or two units, it is highly recommended to stack on the floor stand provided by Welso.

## Data Storage

Welso incubator shakers record temperature, speed, concentration and humidity every minute. Users can check all records in 7 days. Or users can export 2.5 years data for future reference.

## Magnetic Drive

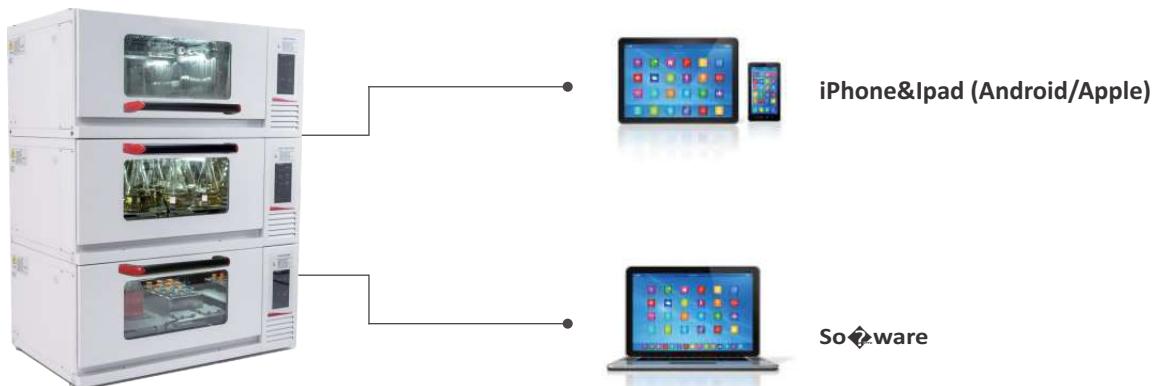

Welso incubator shaker features a magnetic drive with triple-eccentric counterbalance shafts which provides stable, reliable and consistent shaking. The magnetic non-belt drive design ensures no scraps and less maintenance which extends service life of incubator shaker even in harsh environment.

## **IQ/OQ Documentation**

Seltis incubator shakers software can control and record temperature, speed, concentration, and humidity which are compatible with FDA CFR21 Part 11 for traceability. IQ/OQ documentation can be provided according to GMP procedures.

## **Optional Remote Monitor**

User can use software to monitor up to 32 units of incubator shakers by using LAN.

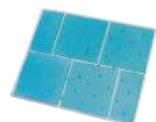

## **Multiple Choices Of Accessories**

Flask Clamp

Flask Holder

Sticky Mat

Fixture For Separating Funnel

Test Tube Holder

Test Tube Rack

Spring Platform

24-Deep Well Plate Clamp

Welso provide different trays to hold flasks, test tubes, plates, vessels, bags and etc to fulfill various needs. It can maximum hold up to 8 pieces of 5L flasks.

## Features

- 10" high resolution LCD touch screen with simultaneous display of all parameters.
- Bi-directional ultraviolet sterilization.
- Slide-out platform for easy cleaning and accessibility of samples.
- Large capacity for batch culture and shaking.
- Optional WiFi and computer monitoring systems allow remote control to ensure safety.
- CO<sub>2</sub> infrared sensor and effective inlet filter.
- Temp. uniformity  $\leq\pm0.4^{\circ}\text{C}$  (@37°C).
- Magnetic drive motor for stable and reliable shaking with low maintenance.
